

Kickstart 2026

$2\pi * r$
 $a^2 + b^2 = c^2$
 $Y = mx + b$
 $(x_1 - x_2) / 2, (y_1 - y_2) / 2$
 $\pi = r^2$

$l = prt$ $(x-h)^2 + (y-k)^2 = r^2$ $\cos C = (a^2 + b^2 - c^2) / 2ab$ $c^2 = a^2 + b^2 - (2ab)\cos C$ $A = bh$

Kickstart is a one on one summer program which runs twice per week one hour each day throughout the summer. This program CANNOT be signed up for online. Please complete the form on both sides and email to sign up for either first or second half or full summer.

The primary objective of the first half is to fill in learning gaps and improve overall math skills and confidence prior to second half. This camp is highly recommended if your student needs to build math confidence. The individualized environment allows the tutor to let the student learn at their own pace. It is a low pressure and stress free time of year to fill in any missing or misunderstood information. This is ideal for students looking to prep for the ACT as well.

Scheduling Options

The finalized schedule will be released 2 weeks prior to the start date. Please check 3 times available. Keep in mind summer camps have a no credit policy for missed sessions. Therefore be sure to select times you know you are available. Custom scheduling is available upon request and subject to availability.

Virtual
